OPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"

2. Always demand that the person cashing the check endorse it in *your presence.* Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.

INTRODUCTION
and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories present to subscribers and the general public, this, the 1957 edition of the Rockingham City Directory, which also includes Aleo Mills, Beaunit Mills, Cordova Mills, East Rockingham, Eastside Park, Glenwood, Hannah Pickett Mills, Honeytown, Jefferson Park, Knob Hill, Maplewood, Pee Dee Mills, Richmond Park, Roberdel Mills, Safie Mills, Watson Heights and West Rockingham and Rural Routes emanating from the Rockingham Post Office.

This is the first Hill Directory of Rockingham and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Rockingham's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Rockingham to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Rockingham Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Rockingham, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record

811193

in existence that aims to show the name, marital status, occupation and address of each adult resident of Rockingham and vicinity, and the name, official personnel, nature and address of each firm and corporation. A special feature of this section, is the showing of minor children.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on pink paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

V. THE ROCKINGHAM RURAL ROUTES DIRECTORY, is the fifth major department, printed on white paper.

Community Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Rockingham. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which the Hill Directory Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

ROCKINGHAM

(RICHMOND COUNTY)

By Isaac S. London,
Editor Rockingham Post Dispatch

The Town of Rockingham was named for the Marquis of Rockingham, Charles Watson Wentworth, a strong friend of the Colonies, who was the Prime Minister in 1765; he was in bitter opposition to Lord North and the policy that lost America. He again became Prime Minister in 1782, dying that year at the age of 52.

While Richmond county was suggested as a new county by the General Assembly of Feb. 1, 1779, it was not until Oct. 23, 1779, that formal action was taken. And it was on April 19, 1784, that a county-seat was authorized, to be called Rockingham. And so April 19 may be considered as the Birth Date for our town. On April 1, 1785, the three duly appointed Commissioners—General H. W. Harrington, John Cole Sr., and Robert Webb—met and bought 18 acres from John James Sr for about $30, and 32 acres from John Cole for $50. This land was situated on the road that ran from the Mountains to Cross Creek (now Fayetteville). The land was bounded by Falling Creek on the south, and Hitchcock Creek on the north and west—a constricted area.

The first postoffice in Rockingham was established Feb. 28, 1829, with William G. Webb as postmaster—and the Town has had but 25 postmasters during these 122 years—the present postmaster being John McCracken, and the office a first-class office with 1955 receipts of $91,508.04.

Aerial View of Rockingham, N. C.

Even back in the Revolutionary war days, the town was education-minded; for it had the Legislature to enact in 1788 a bill creating the Richmond Academy.

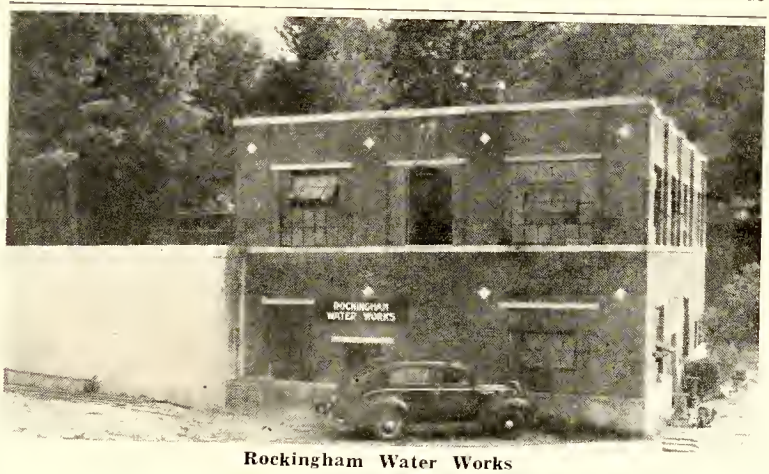

In 1922 the Town erected the present elegant high school building, under the able superintendency of L. J. Bell, who was superintendent from 1906 to 1948. And in December, 1936, the school district voted to tax itself 25c on the $100 valuation to supplement the salaries of the teachers to the end that a stronger faculty could be assured.

And in 1949 the town and county voted $1,750,000 in bonds for school facilities expansion—and built in 1951 a new model Negro building costing about $200,000 and with a faculty of 20 teachers and in 1955 a $1,665,000 school bond was issued. The schools are directed by J. E. Huneycutt (1948) as superintendent, William Brown as principal of the high school, J. C. Mulkey for the grammar school and Miss Sena Dunn for Great Falls school—a white faculty of 54 (the principal of the large Negro school is an able Negro educator, J. M. Hodge). It is noteworthy of the fine spirit prevailing between the races here, and the determination of the School Board to give them adequate facilities. This School Board consists of John Entwistle, chairman; Leo Allen, Lonnie McCaskill, Worth Walker and James Pittman. Under Supt. Bell, the Rockingham school was the second system in the entire state to get on the Accredited List. And it has maintained its enviable educational record over the years.

There are three movie theatres in town, four civic clubs, two clubs for veterans, ample churches, a large Community Center, a 3-store Federal building dedicated March 2, 1936, a magnificent courthouse erected in 1925, a fine 9-hole golf course at the Country Club five miles northeast of town, a dial phone system (installed Sept. 17, 1950), and with 4,230 phones as of August, 1955, two fire trucks, an unlimited supply of clear, clean water fresh from the sand-

hills to the east and northeast, all streets paved. And in fact, a town in which it is a pleasure to live—hospitable, friendly and living up to its slogan of "The Best Town at All."

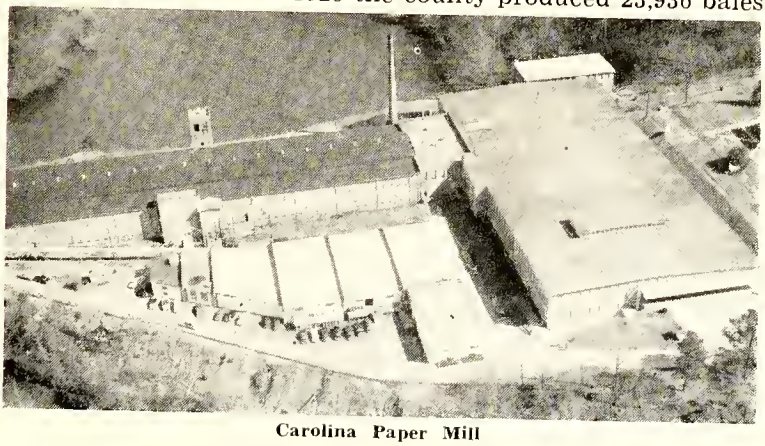

In the past 55 years there have been but ten Mayors of the town—the present Mayor being W. H. Entwistle.

The Town headquarters for the County Draft Board, with Isaac London as chairman.

The County (and our Town) have had one citizen as Secretary of State—W. N. Everett (1923-1928); a Governor, Cameron Morrison, 1920-1924, and later U. S. Senator; and five Congressmen—Duncan McFarland (March 4, 1805 to March 3, 1807; General Alfred Dockery (twice) first in 1845 and elected again in 1851; Colonel Oliver Dockery March 4, 1867 to March 3, 1871; Colonel Walter L Steele Nov., 1876 to March, 1881; and finally C. B. Deane elected for this 8th District in 1946 until 1957.

In closing, it might be stated that the climate is unsurpassed—neither extremes. The mean sea-level at the Seaboard depot is 211 feet—average rainfall, .48 inches.

And not only is the county industrially active, but agriculturally as well. In 1926 the county produced 23,936 bales

Carolina Paper Mill

of cotton—the big cash crop. But diversification by 1951 has reduced the cotton crop to 5,000 bales, and boosted the peach orchards to over one million trees.

Another matter of importance about Rockingham is that there are two strong banks, a large hotel and five motels, two newspapers, radio station, ice plant, bakery, tissue paper mill, concrete mix—in fact, just about any sort of industry desirable; but there is room for more.

The town and county are bisected with through paved highways—U. S. No. 1 from Kent, Maine, 2,423 miles to lower Florida; No. 74 from Ashville to Wilmington; No. 223 from Greensboro-Winston to Florida; and the main line of the Seaboard Air Line Ry runs through the town—New York to Atlanta; and the short 30-mile Rockingham Railroad built mostly by the mills in 1911 to give a competitive freight outlet to the A. C. L. at Bennettsville.

And finally, Rockingham prides itself on being a really friendly, co-operative community—a people industrious who go on the theory of live and let live—and a people who have respect for the rights of others.

Yes, Rockingham will continue to live up to its motto of, "The Best Town at All."

The Town of Rockingham has the smallest area of any incorporated town in North Carolina. And the official 1950 census of 3,356 by no manner of means gives the remotest idea as to the town's business, its influence and its potentialities.

As a matter of fact, within a radius of 4 miles from the center of the town, the population is 15,000—the dividing line between corporate limits and suburbs is indistinguishable.

Richmond County

Rockingham is the county-seat of Richmond county—a county with 483 square miles and 306,000 acres—the county ranks 38th in size out of the state's 100 counties. The 1950 census for the county is 39,597.

The General Assembly on Oct. 23, 1779, passed an Act authorizing the creation of a new county out of Anson—that portion lying east of the Pee Dee (Yadkin) river. Commissioners were named to lay out the new County, and

County Court House

establish a County-seat; these men were Henry Wm. Harrington, John Donaldson, William Legate, John Coal (Cole), Robert Wells, Robert Thomas, Richard Pemberton.

The new county was named Richmond, in honor of Charles Lenox, 3rd Duke of Richmond, who in 1778 initiated debate in the British parliament calling for removal of troops from America.

The census of 1790 gave Richmond county 5,055 inhabitants—and in ten years this had been increased by 568. In 1860 the census was 11,009, pumping to 23,948 by 1890; but in 1899 a large slice (306 square miles) was cut from the county, and Scotland County created, so that when the 1900 census was taken, the much smaller county "shrunk" to 15,855. By 1920 the county had 25,567, and now in 1950 it is 39,597—and one of the most alert industrial counties in the state. The county is wisely administered with a property valuation of $33,500,000 and a 1950 tax rate of only $1.25 on the $100 valuation. As of 1956, the Chairman of the County Commissioners (5 members) is Palmer Nicholson. The Sheriff is Raymond Goodman—and he is 18th man to serve as Sheriff since 1868. The Clerk of Court now is Thomas L. Covington, and he is the ninth man to be Clerk since 1868. The Register of Deeds is a most capable woman —Mrs. Agnes Flake—and only 17 persons have been Register since 1868. Not only has the County a woman Register of Deeds, but the County Auditor and Tax Supervisor is a woman—Miss Mary T. Covington.

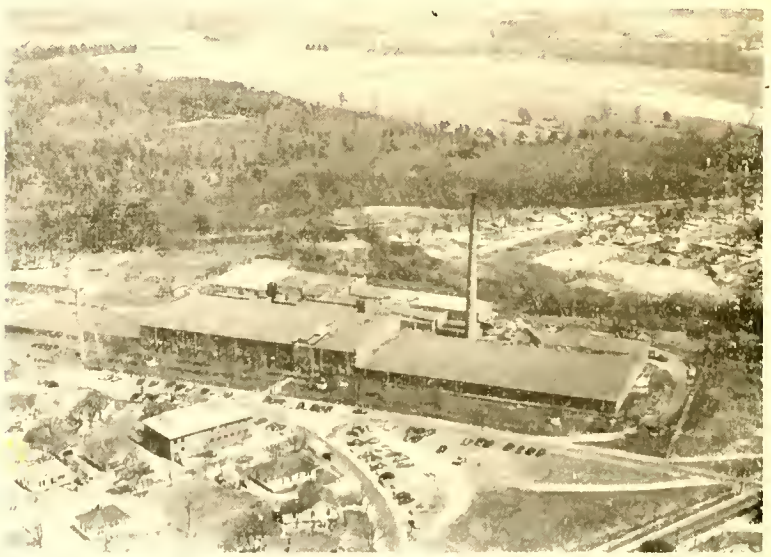

Much could be written of the County but space forbids. A county that is rich in history—Flora Macdonald's twins died in 1777 in the hills of the northern part of the county, she was born in 1722, died March 5, 1790—General Henry Wm. Harrington gave the South its impetus in cultivating cotton—experimenting with it in Wolf Pit township, and developing it to the commercial stage—and thereby laying the foundation for the powerful textile field enveloping Rockingham. The County was foremost in responding to

County Hospital

the call in 1861 for troops to repel the Yankee invasion. The first Companies to go from the county were the Pee Dee Guards (and in 1930 the U. D. C. erected a monument on the Rockingham town square to the memory of our Confederate dead); other units to go were the Scotch Boys from what is now Laurinburg, and the Harrington Light Artillery. General Alfred Dockery had five sons who were officers, two of them Colonels—a record probably not equalled in the war. And it was this Alfred Dockery (1806-1881) who was one of the charter members of the Richmond Mfg. Company, chartered in 1833, to build a cotton mill in Rockingham—the seventh cotton mill erected in the entire state. This mill was burned by Sherman's bummers in March, 1865, but was rebuilt in 1869 by Walter F. Leak and others and operated as Great Falls Mill until 1929. That mill was the forerunner of the textile empire that has meant so much for the county and town—the next mill was in 1874 organized by Robert L. Steele, known as Pee Dee. Then in 1882 the Roberdel mill, in 1899 Pee Dee No. 2, in 1898 Steele's mill, 1902 Roberdel No. 2, 1910 Entwistle No. 1, Ledbetter yarn mill in 1883, Leak mill in 1923, Midway mill in 1881, the big Hannah Pickett No. 1 mill in 1908 with W. B. Cole as the directing force; and then in the 'forties there developed a change in ownerships in most of these mills—the stockholders in some mills receiving as much as $3,600 a share for their stock! At the present time, the seven big mills have over 250,000 spindles and with a weekly payroll of $250,000! No wonder Richmond county is highly regarded as an industrial center—and a good place in which to live—and with Rockingham as the HUB.

Before we conclude this hurried sketch of the county, it must be noted that Wake Forest College had its impetus here in Richmond county; for it was at Cartledge Creek Baptist church that the Baptist State Convention Nov. 1-6, 1833, and at 4 p. m. Monday, Nov. 4, formally adopted the Resolution naming the Trustees for the new Institute (changed to College Dec. 28, 1838); it was at this meeting that the present great Baptist college had its birth.

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight • Out of Mind

** Out of Business **

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

*

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Customers,

Profits &

Light --

The alert businessman can spot the happy relationship of these three words. He knows how "Planned Lighting" in his display windows can turn shoppers into prospects. And how, in his store, it helps turn prospects into customers. The result? More customers and more profits for him.

FREE SURVEYS of your Lighting requirements are part of C. P. & L. service. If interested, just call your nearest C. P. & L. Office at no obligation whatever. A telephone call today can mean more profits for you tomorrow.

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the local first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States, including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the local first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

Don't Contribute to Counterfeiters
KNOW YOUR MONEY!

Don't Be Fooled by Forgers
KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.
	Genuine—Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*—Poorly printed, badly spaced, uneven in appearance.
	Genuine—Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

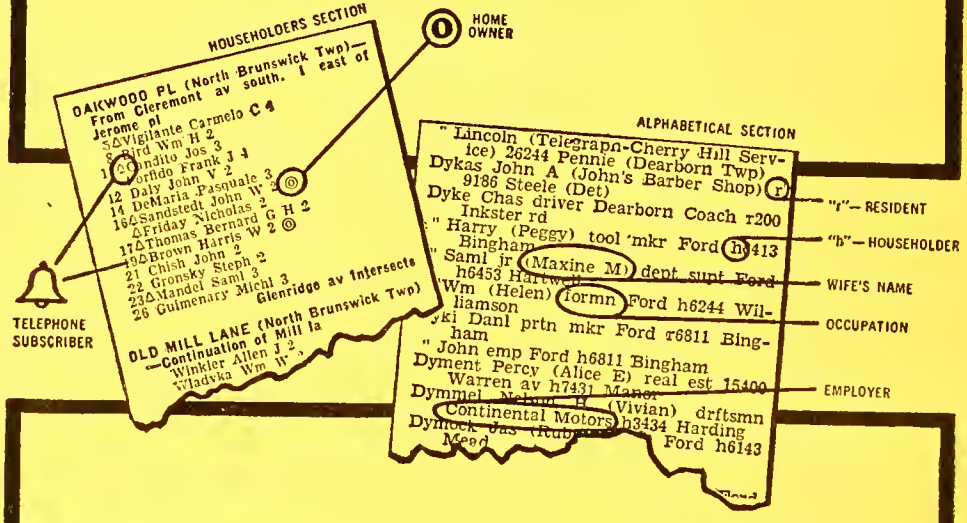

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
